ESP32-C2 Series SoC Errata

[?]

This document describes known errata in ESP32-C2 series of SoCs.

It consists of the following major chapters:

- **Chip Revision Identification**
  - Introduces how to identify a specific ESP32-C2 chip revision, or a batch of chips and products built around the ESP32-C2 chips which contains error fixes described in this document.
- **Errata Summary**
  - Overview of all bugs and their affected chip revisions.
- **All Errata Descriptions**
  - Detailed bug descriptions, including conditions, expected behaviors and actual behaviors, causes, influences on users, workarounds, and solutions.
- **Errata Descriptions by Chip Revisions**
  - Classification of bug descriptions by chip revisions.
- **Revision History**
  - The release notes for this document.

To switch to another chip, use the drop-down menu at the top left of the page.

Important

The ESP32-C2 SoC currently consists of only one series, the ESP8684, so the references of ESP32-C2 in this document refers to the ESP8684 Series SoCs.
